Professional Summary

Enthusiastic and detail-oriented Software Developer with hands-on experience in full-stack development, front-end optimization, and API integration. Skilled in Java, React.js, and SQL with a strong foundation in Data Structures and Algorithms (DSA). Proven leader with experience managing teams to deliver scalable, user-friendly solutions..

Education

CMR Institute of Technology

Bachelor of Technology in Computer Science(Data Science) GPA: 7.14

Nov. 2021 – Apr 2025

Hyderabad, Telangana

Sri Chaitanya jr College

Intermediate Percentage : 89.4

Jun. 2019 – Mar 2021

Khammam, Telangana

ST.Paul's Lutheran school

10th GPA : 9.00

Jun. 2018 – Mar 2019

Bhadrachalam, Telangana

Projects

Hospital Management System | Java/Spring Boot, MySQL, Swagger | [View Code on GitHub](#)

Nov 2025

- Developed a scalable relational database in **MySQL** featuring independent entities for Patients and Doctors, unified by a **Visits mapping system** to manage complex appointment scheduling.
- Implemented a full **CRUD lifecycle** across all modules and engineered a centralized **Exception Handling Layer** to ensure application stability and standardized error responses.
- Streamlined development by utilizing **Swagger** for automated documentation and **Postman** for rigorous API endpoint testing and validation.

E-Commerce Web Application | React.js, Axios, FakeStore API, CSS3 | [View Code on GitHub](#)

Sep 2025

- Developed a responsive **Single Page Application (SPA)** using **React.js**, implementing a component-based architecture to ensure code reusability and maintainability.
- Integrated **Axios** for asynchronous data fetching from the **FakeStore REST API**, handling real-time product synchronization and implementing error-handling for seamless user experience.
- Engineered advanced **filtering logic** and search functionality to dynamically sort products by category, price, and rating, optimizing the UI for efficient data rendering and navigation.

Employee-Management-Applicationn | Java/Spring Boot, MySQL, Swagger | [View Code on GitHub](#)

Sep 2025

- Built a Employee Management Web Application using Spring Boot MVC, demonstrating full stack development skills from UI to backend
- Implemented CRUD operations (Create, Read, Update, Delete) for employee records, enabling efficient workforce data handling.
- Integrated the application with MySQL database for persistent storage and retrieval of employee data.

“Multi-Class Stress Detection Through HeartRate Variability. | Python | [View Code on GitHub](#)

Jan 2025

- Impact of Stress: Chronic stress increases the risk of mental health issues like anxiety, depression, and sleep disorders.
- A CNN-based model is developed to classify stress into three categories (no stress, interruption stress, and time pressure stress) using time- and frequency-domain HRV features.

Technical Skills

Programming Languages:Java (OOP), Python, JavaScript (ES6+), SQL.

Web Development:React.js, Node.js, HTML5, CSS3, JSX.

Backend & Databases: Spring Boot, Hibernate, MySQL, MongoDB, REST APIs, Swagger

Tools & Platforms: Git, GitHub, VS Code, SalesForce, Vercel .

Certification

- Certificate of Internship Completion by EDUGENE Technologies.
- Course Completion for "Java Full Stack Course" at Codegnan!
- Java basic Course Completion Certification by Hacker rank.
- Programming Essentials in python by Cisco Networking academy.
